## PROPOSED REVISION TO THE RESIDENTIAL SOLID WASTE COLLECTION - HOLIDAY SCHEDULE

Staff Contact: Jack Friedline, Director, Public Works

Staff Presenter: Michelle Woytenko, Deputy Public Works Director

## **Purpose and Policy Guidance**

This is a request for City Council to review and provide guidance regarding proposed revisions to the current holiday schedule of the Residential Collection Services, within the Solid Waste Management Division.

## **Background**

The Solid Waste Management Division, Residential Collection Services, currently collects weekly from each resident, refuse and recycling in separate containers, on the same day each week. The division currently observes ten of the eleven City holidays (excluding Thanksgiving Friday). During weeks with a holiday, the collection service is moved a day, and, if the holiday is on a Monday, all residents are impacted. For example, when a holiday falls on a Monday, normal Monday service is moved to Tuesday, normal Tuesday service is moved to Wednesday, etc., finishing the service by collecting normal Friday service on Saturday.

Staff is proposing that the division only observe three holidays; New Year's Day, Thanksgiving Day, and Christmas Day. The proposed change was suggested by staff within the division to avoid the higher traffic in residential areas on weekends.

#### Analysis

The Solid Waste Call Center receives an increase in calls during holiday weeks, the majority of the increase call volume is either a resident believes they were missed, as they were unaware or forgot about the holiday, or a resident believes government (the City) has too many holidays and observes holidays that they do not (example - Columbus Day). Other local municipalities such as, Phoenix and Scottsdale, currently observe on Thanksgiving Day, Christmas Day and New Year's Day, and, Glendale observing the same holidays would avoid collection confusion when residents move from these cities into Glendale, or live in Glendale with a Phoenix mailing address.

As a safety aspect, on a normal weekday, residential streets are relatively quiet whereas on weekends, there are more children playing; additional pedestrian and/or bike traffic; more garage sales; and a higher level of traffic on residential streets in general. In addition, the landfill observes its highest customer volume by transaction on Saturdays, and adds additional staff for spotting purposes on those Saturdays when Residential Solid Waste Collection is working.

## **Community Benefit/Public Involvement**

Public Works staff is planning a comprehensive public outreach for the proposed change.

This change would avoid confusion and provide a higher level of customer service to the citizens of Glendale. To City of Glendale employees, the resultant impact to morale would be beneficial.

## **Budget and Financial Impacts**

There would be little financial impact associated with the change in holiday operations. The advertisement/promotion of this change would mostly be staff time.

Capital Expense? No

**Budgeted? No**

### A.R.S. TITLE 4 ENTERTAINMENT DISTRICT PERTAINING TO THE ISSUANCE OF LIQUOR LICENSES

Staff Contact: Vicki Rios, Director, Budget and Finance

Staff Presenter: Jenna Goad, Manager, Intergovernmental and Council Services

## **Purpose and Policy Guidance**

Staff is seeking guidance from City Council regarding the formation of an Arizona Revised Statutes (A.R.S.) Title 4-Arizona Liquor Law, Entertainment District as it pertains to liquor licenses for the downtown area. The adoption of an Entertainment District would allow the city, on a case-by-case basis, to approve exemptions from the distance restrictions prescribed in A.R.S. § 4-207 pertaining to the location of certain types of liquor licenses within 300 feet of a church or school.

### **Background**

A.R.S. § 4-207 prohibits the issuance of certain types of liquor license for any premises that are, at the time the license application is received by the director, within 300 horizontal feet of a church, school building, or fenced recreational area adjacent to the school building. This restriction is commonly referred to as the "300 foot rule". A church is defined as any building erected or converted for use as a church where services are regularly convened that is used primarily for religious worship and schooling and that a reasonable person would conclude is a church by reason of design, signs or architectural or other features (A.R.S. § 4-207(D)(1)). A school is defined as any public or private school with any grades Kindergarten through 12 (A.R.S. § 4-207 (A)).

The following license types are not impacted by the 300 foot rule:

- Series 1 and 2 Producer
- Series 3 Microbrewery
- Series 4 Wholesaler
- Series 5 Government
- Series 11 Hotel-Motel
- Series 12 Restaurant
- Series 13 In-State Farm Winery
- Series 15 Special Event license
- Series 18 Craft Distillery
- Playing area of a golf course with an issued license
- A beer and wine license at a not-for-profit performing arts theatre with a permanent seating capacity
  of at least 250 persons
- Validly issued licenses that were in place prior to the location of a church or school (these licenses can

be transferred to new owners at the same location)

The 300 foot rule must be observed for the following license types:

- Series 6 Bar
- Series 7 Beer & Wine Bar
- Series 8 Conveyance
- Series 9 Liquor Store
- Series 10 Beer and Wine Store
- Series 14 Private Club
- Series 16 Wine Festival/Fair

State law allows places of worship and schools to be located within most zoning districts. The State Legislature recognized the potential conflict between community desires to create day and night time activation in certain areas based on entertainment uses and amended A.R.S. § 207 to include a provision that allows the governing body of a city or town, on a case-by-case basis, to approve an exemption from the distance restrictions set for churches and schools through the formation of an entertainment district (A.R.S. § 4-207(C)(4)). The number of entertainment districts allowed in any jurisdiction is based on municipal population as follows:

- Population of at least 500,000 may designate no more than 3
- Population of at least 200,000 may designate no more than 2
- Population less than 200,000 may designate no more than 1

An entertainment district is defined as a contiguous area that is designated by a resolution adopted by the governing body of a city or town that consists of no more than one square mile, that is no less than one-eighth of a mile in width and that contains a significant number of entertainment, artistic and cultural venues including music halls, concert facilities, theaters, arenas, stadiums, museums, studios, galleries, restaurants, bars and other related facilities (A.R.S. § 4-207(C)(4).

Due to the number of churches and schools in the downtown area, the interest in converting former retail uses to entertainment uses, the number of vacant properties, and the information received from other communities, staff made a recommendation to Council regarding public outreach activities related to the potential designation of an entertainment district with the following objectives:

- Educate the public about what an entertainment district designation does;
- Gather input from the public regarding the level of support for the creation of an entertainment district in the downtown area;
- Identify any community concerns that Council should be aware of;
- Discuss proposed district boundaries utilizing the informally designated Dining District as the focal point (map attached) with maximization of the size allowed by statute (one-square mile);
- Gather input on whether the city should consider the requirement of a conditional use permit for exemption requests; and
- Public outreach would include personalized outreach to all of the identifiable churches/schools in the

area along with a minimum of one public meeting.

## **Previous Related Council Action**

At the May 3, 2016 Workshop, Council directed staff to conduct public outreach in order to solicit feedback and comments on the proposed creation of an entertainment district in downtown Glendale. Council also directed staff to maximize the proposed boundary by extending east to 43rd Avenue and west of Grand Avenue.

#### **Analysis**

Based on Council feedback, the proposed Entertainment District boundary was extended to include additional entertainment uses east towards 43rd avenue and west towards 61st avenue, and generally includes a few blocks north and south of Glendale Avenue (see attached map). There are approximately 16 known churches and 2 schools (one of which is a co-located church and school) that fall within the proposed boundary.

To conduct public outreach, staff developed the following tools to aid in the process:

- Comprehensive Fact Sheet providing details about Entertainment Districts (English/Spanish)
- Formal outreach letter for churches and schools located within or near the proposed Entertainment District boundaries (English/Spanish)
- Survey tool to solicit feedback from any interested parties that was provided both online and hardcopy (English/Spanish)
- Informational website
- Postcard mailer for licensed businesses in the area
- Entertainment District poster for posting at downtown city facilities and businesses wishing to display

Public outreach activities included all of the following:

- Direct mailer to 39 churches and 10 schools which included schools that would be impacted
  and those in the immediate vicinity. The packet included: outreach letter with an offer to
  meet/present to their constituency, fact sheet, and survey. Staff did not receive any requests
  to meet, but did attempt phone contact to verify receipt of materials and offer to meet/answer
  questions.
- Postcard mailer to over 470 Centerline businesses and the interested parties list maintained by the Planning Department.
- Communication with Glendale Elementary School District which resulted in automated calls to student households informing them of the proposal and public meeting.
- Email notification to the following groups:
  - o Registered neighborhoods in Cactus and Ocotillo districts
  - Glendale Centerline Alliance
  - Glendale Chamber of Commerce
  - Downtown and Catlin Court merchants

- Two quarter-page advertisements in the Glendale Star in the August 18th and August 25th print editions
- Inclusion in City Council newsletters
- Formal press release
- Public service announcement on Glendale 11

Public outreach efforts resulted in the following:

- Staff presentations to:
  - o Glendale Chamber of Commerce Government Affairs Committee
  - 5 and 5 Downtown Merchants alliance
  - o Glendale NEIGHBOR non-profit consortium
  - Planning Commission presentation
- Formal public meeting held on August 31st
- Five formal news articles and 2 opinion pieces in the Glendale Star, the Arizona Republic, and Your West Valley (Independent Newsmedia Inc.)
- Formal letter of support from the Glendale Chamber of Commerce

## **Community Input/Public Involvement**

The attached Survey Results Report includes a summary of the survey data and feedback received through the survey tool during a 9-week period beginning July 22nd and concluding on September 27<sup>th</sup>. A total of 151 survey responses were received during this period with 56% of responses in support of the proposal. A majority of the respondents identified themselves as residents; and, the zip code reporting the highest number of respondents regardless of constituency group was that of the proposed district (85301). The full details of the survey, including commentary, are provided as an attachment as well. Themes from those in favor were that the proposal could create attraction, diversity of uses, and revitalization. Themes from those opposed or expressing concern included potential undesirable behavior, impacts to the existing family-friendly environment, and opposition towards liquor store uses.

Staff presented to the Planning Commission on August 4th, providing information about the proposal and seeking input and guidance from the Commission regarding whether there was general support for the concept, were there any specific criteria that they would suggest be utilized by Council when evaluating requests for exemptions, any suggestions or comments regarding the proposed district boundaries, or any other concerns or need for additional information on the topic. One question was raised regarding whether the proposal would allow billboards in the downtown area. The adoption of an Entertainment District does not impact zoning and therefore would not have any impacts related to billboards. The Planning Commission expressed support for moving forward with the proposal.

A public meeting was conducted on Wednesday, August 31 to provide an overview, answer any questions, and seek public feedback. The meeting was attended by approximately 12 adults (not including city staff and Councilmembers) and four people spoke publicly. Two were church pastors (including one that also operates a school), one was a business owner who is also a resident, and one was a resident. The feedback from those who spoke was general support of the concept and the city's efforts to revitalize downtown, but also the

request that efforts be made to maintain the character of the downtown area and consider impacts to adjacent properties in the decision making process when individual exemptions are considered.

#### **Council Guidance**

The city's significant public outreach effort resulted in feedback outlining general support for the concept with suggestions for maintaining the existing character of the area while creating the ability to attract new uses to revitalize Centerline. Based on the public feedback received, the staff recommendation is to bring this item forward to a public voting meeting to consider adopting a resolution to create an Entertainment District that includes the following criteria that City Council may utilize when considering requests for exemption to the 300 foot rule. Staff is seeking Council guidance regarding the recommendation, criteria, and finalization of district boundaries.

## Proposed Exemption Criteria:

- 1. Zoning and Land Use. The proposed use complies with all applicable zoning requirements, including zoning specific to the Glendale Centerline Overlay District, and, if applicable, a conditional use permit was granted for the proposed use.
- 2. Effects. The proposed use is not materially detrimental to and will not adversely affect (1) any church or charter school that is within 300 feet of the proposed use, (2) the persons residing, working or visiting the entertainment district or surrounding neighborhoods, and (3) the surrounding properties, neighborhoods, and the city. Adverse effects may result from several sources, including but not limited to the traffic, parking, safety, pedestrian accommodation and accessibility, hours of operation, noise and odor of the proposed use.
- Character. The proposed use complements and enhances the surrounding area, and does not adversely affect the character of the Glendale Centerline, including but not limited to the familyfriendly character of the area.

## Overview

At the May 3, 2016 Workshop, Council directed staff to conduct public outreach in order to solicit feedback and comments on the proposed creation of an entertainment district in downtown Glendale. A primary component of that outreach was a survey tool used to solicit feedback from any interested parties. The survey was provided both online and in hardcopy. The survey was also provided in both English and Spanish. A copy of the survey and a full listing of all the responses received accompanies this summary report.

## **Results Summary**

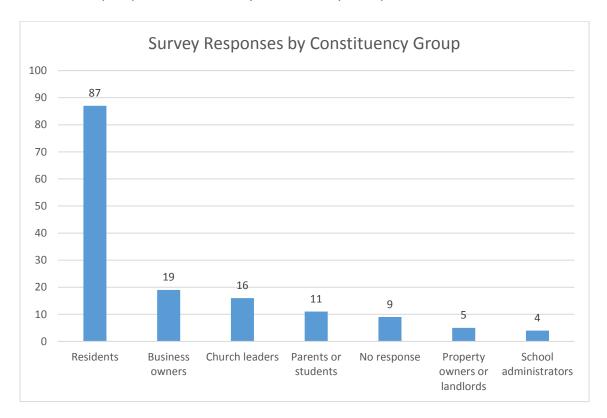

56% of all respondents reported that they were in favor of the creation of an Entertainment District in downtown Glendale. Of the 151 survey responses received, 85 indicated they supported the proposal, 45 indicated that they did not support the proposal, 17 indicated that they were undecided, and 4 provided no response. Further evaluation of the survey data showed that there were differing levels of support among different constituency groups with 92% of business community respondents, 56% of resident respondents, and 36% of church/school/parent/student respondents in support of the proposal.

Those in favor generally discussed the opportunity to draw more people into downtown, the opportunity to attract more diverse businesses, the increased entertainment options it would offer for Glendale residents and visitors, and the opportunity for increased economic development and downtown revitalization. Common issues raised by those not in support included concerns about drunk driving, undesirable behavior and fights, the closeness to schools, and a desire to keep the quaint, family-friendly environment currently in downtown Glendale. There was particular concern about the possibility of liquor stores opening near schools.

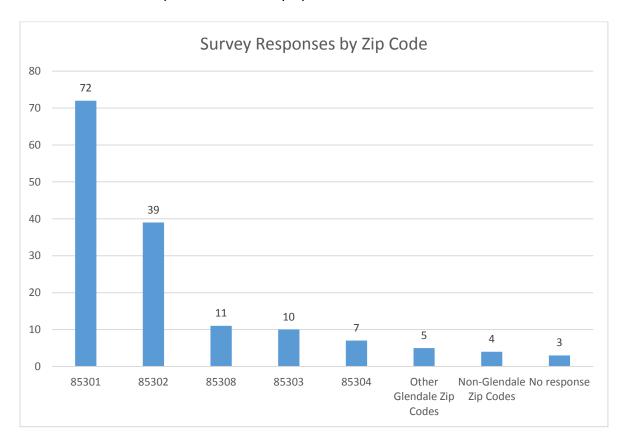

# Number of Responses by Constituency Group

In total, 151 survey responses were received over a 9-week period. The majority of the responses were submitted online (130) and 21 were received in hardcopy. The following chart shows the number of survey responses received by Constituency Group.

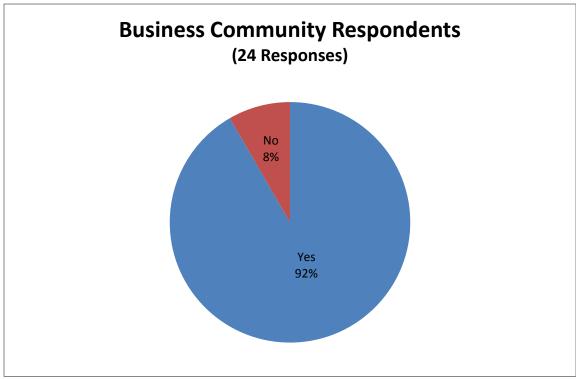

# Number of Responses by Zip Code

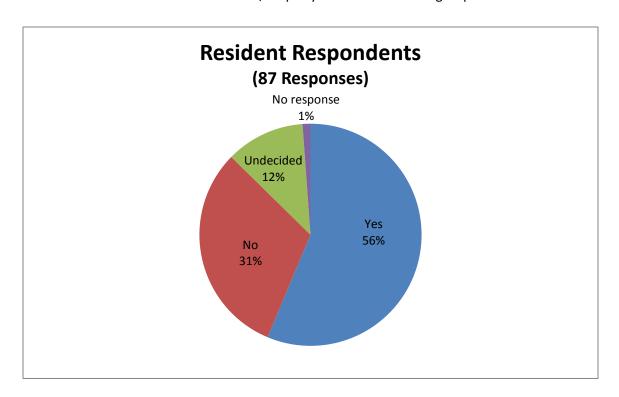

The majority of the responses received (48%) were from the 85301 zip code which includes the proposed entertainment district area and an additional 33% of responses were received from the 85302 and 85303 zip codes which represent the neighboring areas. The following chart shows the number of responses received by zip code.

Hove living in that kind of community.  don't think it's the answer  We don't need a lot of drunks walking the streets of downtown Glendale after dark. That will keep family events away.  If fully support the development of the downtown but wonder what this will do to the property on 56th Avenue and south of Palmaire. We would not like to see a tavern there or a venue for live music or outdoor music. Because the information offered is so broad, it is difficult to understand what impact this might make.  Entertainment is OK but should discourage liquor/alcohol beverages. Our youth need better examples. Check Glendale's past history. Not good for type of business down town now. Please NO liquor laws passed for down town.  Ido not know all of the properties which would be affected.  am partially blind, i currently am not fond of Downtown sidewlaks as they are now so will the distinct cause the area to have improved sidewalks  2. due to limited Finances, i am restricted on my outings and have to go to eateries w value priced meals like Fast food or Tafco bell	Yes Undecided No No No Undecided Undecided Undecided No	Too large - encompasses too many churches and schools Move it elsewhere - Westqate? Going across Grand Ave is also a cumbersome and parking is poor downtown.  Alcohol does not equate to entertainment and that is all this seems to be about. There are plenty of places to drink nearby, no need to permanently change the zoning in order to provide an increased number of drinking establishments.  Alcohol is never a good thing to being more of. More drunk people on streets in a place that would be better without.  Unless totally family and children oriented - no liquor  Glendale should be a family oriented place. I love living in that kind of community.  don't think it's the answer.
